chairman of the Democratic committee, gave out the following:

"We concede the state to the Republicans by 60,000 plurality and both branches of the legislature by a large majority. The Populist vote of over 60,000 for Coker for governor hurt us. The hard times were too fresh in the minds of the people to be forgotten, and this led to our defeat."

**IOWA.**

**Republicans Elect Colonel Drake by a Large Majority.**

DES MOINES, Nov. 6.—The Republican gains over two years ago are nearly 24 to a precinct. This will give Drake (Rep.) for governor a plurality of over 80,000 if the present rate of gain is continued.

Republican state committee claims state by 80,000 or over. The committee claims legislature by two-thirds majority. The indications are that the Populists have made large gains all over the state, their total vote being something like 50,000.

**Virginia.**

RICHMOND, Nov. 6.—The election in Virginia, which was for half the senate (50) and the whole membership of the house (100), has brought about some surprises. The indications are that the Democrats have lost half a dozen senatorial districts and a number of house districts which had been counted upon as safe. There is, however, no question that the Democrats have the legislature, and possibly two-thirds of the two houses. The issue upon which the contest was fought was for a change in the present election laws. It is said that among the Democratic candidates for the house is Dan Lee of Stafford, a brother of General Fitz Hugh Lee, who was defeated for the same place in the contest of 1881.

**Illinois.**

CHICAGO, Nov. 6.—The Republicans carried the election by pluralities of about 30,000 on the entire ticket. Ball, the Republican candidate for judge of supreme court, has defeated Morrison (Dem.) by 40,500. The Republicans elected five of the trustees for the 30,000,000 drainage canal.

**Mississippi.**

JACKSON, Miss., Nov. 6.—The Democratic majority over the Populists for state officers in Mississippi is 50,000, thus electing D. J. McLaurin as governor.

**Michigan.**

DETROIT, Nov. 6.—Mayor Pingree was elected for his fourth term by upward of 10,000 plurality over Goldwater (Dem.). His majority is over 5,000 greater than two years ago.

**DISASTROUS FIRE.**

Nearly \$2,000,000 Worth of Property Destroyed and Several People Injured.

NEW YORK, Nov. 6.—An explosion, the cause of which is not known, occurred at 8:40 last evening in White's express office, on the southwest corner of Crosby and Bleeker streets, and almost immediately followed a conflagration that not only proved disastrous, but almost got beyond control.

The only theory of the explosion that could be formed last night was that some package in the express office contained explosives and was ignited either spontaneously or by the heat of the room.

In a few moments the flames had spread from the building in which they started to a shoe store next door, and from there to the rear of the Empire State bank building, at 610 Broadway. An alarm was sent out promptly and was followed in quick order by four others. It was responded to by 18 engines, 6 hook and ladder companies, 2 fire patrol companies and 2 water towers. Even this unusual force found difficulty in coping with the conflagration, which spread with alarming rapidity.

Over the floor occupied by the bank were five stories occupied by dealers in fancy goods, millinery, feathers and the like, and because of the inflammable nature of the goods there was bred such intense heat that within half an hour the flames crossed Bleeker street, and the Manhattan bank building, a modern, supposedly fireproof structure, was blazing. This building is eight stories in height, with the seven upper stories also principally occupied by dealers in fancy goods. Against a fire of this description the firemen were not only unable for a time to make any headway, but they steadily lost ground.

The old Bleeker Street bank building caught fire, but being a substantial old stone building, was not very seriously damaged. No. 618 Broadway suffered from an explosion, supposed to have been caused by hot air. The flying glass from the front windows cut Frank Henkle of 333 East Eighty-third street severely, and he was taken in an ambulance to the Chambers Street hospital.

The entire inside of this building was drenched with water and so escaped the flames, though the goods in Adler's glove store, J. N. Goodrich & Co.'s coach factory and Alfred L. Simon & Co.'s leather store were almost totally destroyed.

The total damage when the fire was got under control, at a little before 12 o'clock, was estimated at \$1,500,000.

Burr McIntosh, the actor, got in the way of the firemen, and was slightly hurt. A dozen firemen were found to be injured. Deputy Chief Riley had three ribs broken and was conveyed to St. Vincent's hospital.

Assistant Engineer Stone of Engine No. 1 had a broken leg. Fireman Simon W. W. Wilkins sustained a sprained ankle, and eight others were badly bruised, scarred and burned.

**Riot in Louisville.**

LOUISVILLE, Nov. 6.—There was an ugly feeling all day between the A. P. A. and Catholics at the "first precinct" of the Fourth ward. Late last evening Joseph Defoe, one of the former, and Will Donovan, a Catholic, had a quarrel, which resulted in a battle between the elements. Twenty shots were exchanged before the police succeeded in stopping the riot. Only one man, Jacob Knight, an A. P. A., was seriously wounded. The rioters scattered.

**Does It Pay to be Sick?**

Besides the discomfort and suffering, illness of any sort is expensive. Hundreds of people consult the doctors every day about coughs and colds. This is better than to suffer the disease to run along, but those who use Otto's Cure for the throat and lungs do better still. It costs less and the cure is certain. You can get a trial bottle free of our agents, J. J. Chambers, 27 North St. near Post Office.

HEADACHE cured in 30 minutes by Dr. J. J. Chambers' "One cent a dose." At drugists.

**Big Revolt in Haiti.**

KINGSTON, Jamaica, Nov. 6.—A report has reached here that a rising has occurred at Cap-Haïtien, a seaport of Haiti, on the north coast, 80 miles north of Port-au-Prince, the capital of the republic. Persons residing here, who are well posted regarding affairs in Haiti, declare that if the report of a rising is true, it means that a general revolution throughout the country will follow.

**Marie Read Wedded.**

PARIS, Nov. 6.—The religious ceremony of the marriage of Marie Delphine, daughter of General J. Meredith Read, formerly United States minister to Greece, to Count Max Foras took place in the Church of St. Philippe du Roule. This was the first occasion for the reassembling of the fashionable population of Paris at the beginning of the season.

**Indicted For Murder.**

NEWPORT, R. I., Nov. 6.—The grand jury in the common pleas division of the supreme court for Newport county brought an indictment against James Shea for the murder of his wife last July. It is alleged that he beat and kicked her brutally, causing her death.

**Big Strike in Clyde Shipyards.**

GLASGOW, Nov. 6.—The Clyde shipbuilders have posted notices which lock out 25 per cent of the employees in their yards. This precipitates the break which has long been expected as a result of the difficulty in the Belfast shipyards and begins the big strike.

**Buried Under the Ruins.**

MUSKIE, Nov. 6.—A portion of the newly constructed Schwantzer passage collapsed with a dreadful crash this morning, burying 15 workmen under the ruins. Five were taken out dead and six dying.

**Suicide at Port Henry.**

PORT HENRY, N. Y., Nov. 6.—Charles S. Judd, teller of the First National bank of Port Henry, while temporarily insane, committed suicide by drowning. He left a note at his house telling where his body would be found.

**Marquis De Nave Acquitted.**

BURGOS, France, Nov. 6.—The Marquis de Nave, who has been on trial for a week past, charged with the murder of his stepson, has been acquitted after the jury had been out 40 minutes.

**FOLKS WITH PAINS.**

HOW TO GET RID OF THE PAIN.

Pains in the Back, Pains in the Muscles. Pains in the Joints, Pains in the Head.

What Causes Them and What Cures Them.

Pain is a sign of disease. You want to get rid of it. There are two ways.

Either to cure the disease, or relieve the pain.

The first way is the better. The curing settles the disease and the pain. The relieving only helps the pain. It will come back again. The disease stays right where it is and eats away your health. You may not feel it while the pain is gone, but it is there just the same.

Pain in the back is kidney trouble. It can be cured with Dr. Hobb's Sparagus Kidney Pills.

It can be cured to stay away, and, with proper care, never to come back. Kidney trouble gives a great deal of trouble to doctors.

It is hard to cure. There are so many complications. They are generally so dangerous.

Only Dr. Hobb's Sparagus Kidney Pills make such a large percentage of cures.

The Asparagus, from which they are made, has such a healing, soothing, curative action on the kidneys. It is such a gentle and healthful tonic, that it cures nearly every case of kidney trouble in which it is used.

Rheumatism is pain in the muscles.

Lotions, etc., can only relieve pain. They can't cure the rheumatism.

Rheumatism is a complication of kidney trouble. It is a poison in the blood. The kidneys should have taken it out, but they didn't.

Hobb's Sparagus Kidney Pills will cure rheumatism. They do it by helping the kidneys in their work of purifying the blood. They do it so thoroughly that it is very seldom the rheumatism ever comes back.

Pain in the joints is gout. It is caused by a poison like rheumatism. It can be cured on the same plan, by curing the kidneys, by taking Dr. Hobb's Sparagus Kidney Pills.

Pain in the head. This is a symptom of brain trouble, but it is caused by kidneys.

The brain, in working, uses up its substance. The blood supplies new substance. But when the blood is impure (on account of sick kidneys,) it gives no nourishment. The brain wears out. As it wears, it pains. This is its danger signal.

Headaches, dizziness, neuralgia, etc., can be cured with Dr. Hobb's Sparagus Kidney Pills. They do it by curing the kidneys, by renewing the purity of the blood.

People who have suffered from pains and aches for years should try Dr. Hobb's Sparagus Kidney Pills.

Pure blood will end their aches, and give them a new feeling of life and comfort.

For the blood is the life. But it must be pure blood.

Dr. Hobb's Sparagus Kidney Pills are for sale at all druggists for 50 cents per box, or will be sent to any address, postpaid, on receipt of price.

Please write for valuable medical pamphlet, sent free by Hobb's Medicine Co., Chicago or San Francisco.

There are many good reasons why you should use One Minute Cough Cure. There are no reasons why you should not, if in need of help. The only harmless remedy that produces immediate results. W. D. Olney.

**BULL'S Cough Syrup**

The People's Friend. In use for fifty years. Cures Cough, Cold, Croup, Whooping-Cough, Grippe, Bronchitis, Asthma and Lung Affections. DR. BULL'S COUGH SYRUP is sold everywhere for only 25 cents. Refuse cheap substitutes.

## KNOWLEDGE

Brings comfort and improvement and adds to personal enjoyment when daily used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adopting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from any objectionable substance.

Syrup of Figs is for sale by all druggists in 50 cent bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

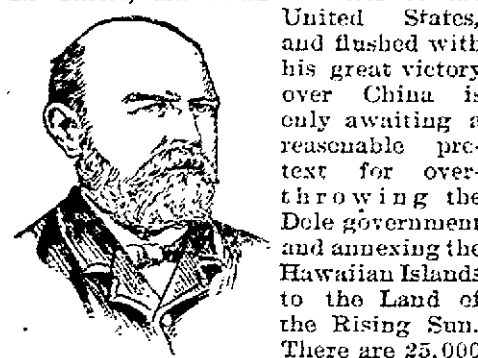

**AMELIE RIVES CHANLER.**  
The Famous Novelist's Career, Her Divorce and Her Numerous Eccentricities.  
The recent divorce secured by Amelie Rives Chanler from her husband, John Armstrong Chanler, upon the ground of incompatibility of temper, was quite a surprise to the literary world, but had long been anticipated in fashionable New York and Virginia society. Friends and relatives of the couple were aware that they had not lived together for two years and surmised that it would be only a matter of a short time before the intensely practical lawyer and the romantic, imaginative, impractical and somewhat affected novelist would agree to disagree according to law. Her love of startling effects was one reason, it is said, that led to the estrangement. In Paris she always insisted upon being attended by a very large, very fat and very black negress.

Her everyday life, it is averred by her society friends, was fully as startling and sensational as her books, the best known of which is "The Quick or the Dead?" a novel said to have been founded upon the courtship of the author and young John Chanler. There was nothing commonplace about her, nothing ordinary. She was always the eccentric young genius, fascinating to the occasional beholder because of her originality and piquancy, but a trifle wearying perhaps to those constantly and intimately associated with her.

Amelie Rives began life under very favorable auspices and has always been the child of wealth, culture and refinement. Her grandfather was William Cabell Rives, United States senator and minister to France. Her father was Colonel Alfred Landon Rives, a civil engineer, born in Paris and godchild of Lafayette, and her mother was Miss MacMurdo, a granddaughter of Bishop Moore of Virginia. Amelie was born in Richmond in 1863, and her early years were passed with her grandfather at Castle Hill in Albemarle county, Virginia. She never went to school, but was guided in her eager quest of knowledge by governesses. She was a strange

**DOLE'S REPUBLIC IN DANGER.**

Minister Castle Believes the Japanese May Seize the Hawaiian Islands.

The almond eyed Jap covets the gem of the Pacific, in the opinion of William R. Castle, Hawaiian minister to the United States, and flushed with his great victory over China is only awaiting a reasonable pretext for overthrowing the Dole government and annexing the Hawaiian Islands to the Land of the Rising Sun. There are 25,000 Japanese on the islands, and it is said they maintain a hostile attitude toward the government in hope that some complication may bring about the seizure of the republic by Japan. The situation may soon call for action on the part of the United States, according to Minister Castle. The present Hawaiian minister is the son of a missionary and was born on one of the islands. His education was finished in this country, and he studied law with the firm of ex-Senator Evans in New York. After practicing in the metropolis for a time, during which he occupied a subordinate position in the corporation counsel's office, he removed to Hawaii, where he became president of the board of education and attorney general during the reign of King Kalakaua. He took part in the revolution of 1893 and was also prominent in the resort to arms when Queen Liliuokalani was deposed in 1893.

He assisted in the formation of the provisional government and was one of the five commissioners who came to the United States and negotiated a treaty of annexation with President Harrison, which treaty was afterward withdrawn from the senate by President Cleveland. It is said that Minister Castle will resign about Dec. 1 and be succeeded at Washington by Frank Hatch, Hawaiian minister of foreign affairs.

AMELIE RIVES CHANLER.

## JENNIE KING, SOUL SAVER.

A Woman Revivalist Who Has Met Great Success in Georgia and South Carolina.

Saving souls is the work Mrs. Jennie King believes she has been called to do, and she is doing it in a very successful manner. Many women are anxious to enter public life, but Mrs. King shrank from it, fought against it and resisted the "call" for years. She is a comely young woman of 28 and was born in Kentucky, but has long been a resident of Dry Valley, Ga. As a mere child she was locally noted for her piety, and at the age of 19 joined the Congregational church. Her father was very poor, but she managed to secure a fair education by attending the country schools and by hard study at home.

When she was 15, a very stirring revival was held at the Gum Spring schoolhouse, and Jennie, astonished friends and strangers alike by the fervor of her prayers. Two women revivalists were so struck by her religious eloquence that they urged her to begin preaching, but her father was one of those old-fashioned men who believe woman's sphere is the home, and she shrank from entering the pulpit. She even married, hoping that the "still, small voice" within her would be silenced, but marriage, maternity even, did not bring about the desired result. Finally she told her husband that she felt irresistibly impelled to save souls. At first he strongly objected to the idea, but he now declares that her course is the only one she could conscientiously pursue. Her revival work has thus far been confined to Georgia and South Carolina, but her great success in securing conversions has caused her to receive cordial invitations from other neighboring states. She is almost constantly engaged in reading the Bible, and she reads nothing else, not even a newspaper.

MRS. KING.

**UP THE MIDLAND.**  
Getting Well—Feeding the Surplus Potato Crop—Higher Prices for Butter—Longer Interest—Will Quit Preaching Selling off Their Stock.

Correspondence ANTON and MERCURY.  
—John Clark, the workman in Leighton's acid factory, who was hit on the head by a wedge flying out of a log he was splitting, and had his skull crushed in so that it had to be trephanned in several places, is making a swift recovery and will be about his work again in a short time.

—Farmers are feeding the surplus potato crop to their stock and the chances are that the tubers will be selling at their regular price, fifty cents a bushel, before next May. If you would take advantage of cheap potatoes buy now.

—Butter is looking up and will, no doubt, be a great deal higher before next June. Like the milk shipping farmers the buttermaker has had a poor show for the past two years and has hardly been able to make an honest living. The butter making farmers of drought-stricken, grasshopper-cursed Delaware county are in a sorry plight, to say the least.

—A low estimate would be, that for the present and for some months to come, there is at least 500 cords of wood cut each working day for the acid factories along the O. and W., between Livingston Manor and Walton. These works are all short of wood and will make a great effort to get a year's supply ahead, as it does not pay to operate them with green wood.

—The agricultural fair no longer holds the attention of the farmers. The New York State Fair of last fall was more like a circus than an exhibit of farm products. It took more time to see "Chilo" and the rest of the "Midway Pleasance" than it did the agricultural exhibit. The numbers in attendance may be as great as formerly, but the majority of them attend with a far different object in view, and in consequence different attractions must be given. The Orange county society will in future spend more money to attract a crowd than it will return in premiums to the farmers.

—Rev. W. H. Kershaw, for some years pastor of the Hancock Congregational Church, but more recently Holland Station, N. Y., has resigned his charge at the last named place and will engage in some other business. His change of views in regard to the orthodox belief of a place of everlasting punishment punishment is the cause for his refusing to preach any longer. In Mr. Kershaw's humble opinion science has ignored the existence of hell, and chemistry found better uses for sulphur than to torture us poor mortals in the hereafter.

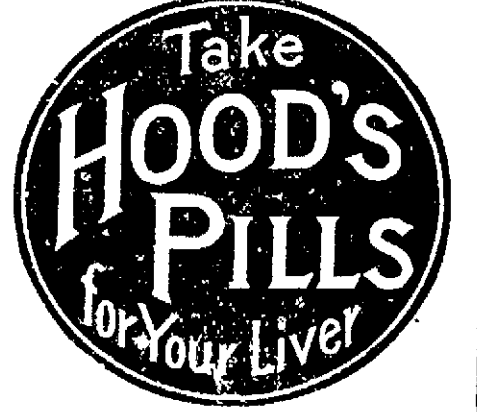

—A large number of cows and other cattle has been driven out of Delaware county during the past four months, and at prices that would seem ruinous to farmers were it not for the fact that it would cost more to get them through the winter than they would sell for in the spring. The bulk of these cows have gone East of course, but many ear loads have gone West as far as Michigan. More than half of the cows kept in Delaware county are either Jerseys or Alderneys, and are consequently very valuable for butter making or those who wish to produce rich milk. The prices paid have been so low that Delaware is a great deal poorer from the effect of the drought and grasshopper plague than many would suppose. When hay is sold at all it brings from \$16 to \$20 a ton. Rustics.

## Deafness Cannot be Cured

By local application, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

## DEMOCRATIC DISASTER.

The details of the disaster which overwhelmed the Democratic party in nearly every state in which elections were held, yesterday, are given in our news columns.

The only encouragement that the returns afford is that in this State and New Jersey the phenomenal majorities of last year are very materially reduced. This is, however, more than offset by the loss of Maryland and Kentucky. In those States Democratic dissensions made Republican success possible, but in Ohio, where the Democrats were united and where their candidate, ex-Gov. Campbell, made a most aggressive campaign, they were unable to cut down the Republican majority of 1893.

There is no disguising the fact that voters are still holding the Democratic party responsible for the hard times that followed the silver panic of 1893. The return of prosperity has not been general enough and great enough to make them forget the dark days through which they passed. The world has not gone well with them and the party in power in the nation is, very illogically, held responsible for whatever is amiss.

If ever a party deserved defeat it was the Republican party in this State. It went before the people with a record of reckless extravagance and blindly partisan legislation during the few months it has been in control of the State government. It played "Good Lord, good devil" on the Sunday excise question, promising one thing in the country and another thing in the cities, and yet, in spite of increased taxes, greed, partisanship and shameless paltering with a great moral question, it has been able to retain its hold on the confidence of a majority of the voters of the State.

Can the Democratic party rally from yesterday's defeat for the national election of next year? We believe that it can and that it will. Democracy stands for popular rights, for the masses against the classes, and though the people may be lured away by false gods they will return to the party that has always fought their battles. The Democratic star sets but to rise again and shine more brightly.

## May Be Fire's Victim

Assistant Superintendent Samuel Gausman, of the electric road, this morning, received a telegram announcing the death, last night, of his brother, George Gausman. He had no information of his brother's illness and as he was a fireman he fears he may have been one of the victims of the big fire at the corner of Broadway and Bleeker street, last night, in which so many firemen were injured.

## Inspecting Excelsior's New Truck

Excelsior Hook and Ladder Company kept open house, last night, and a very large number of our citizens called to inspect the new truck. There were many expressions of admiration and none of criticism.

## THIRTY LIVES LOST

A Boiler Explosion Wrecks Two Buildings—Many Girls Buried in the Burning Ruins.

DETROIT, Nov. 6.—The boilers in the Journal office at 45 Larned street, exploded, this morning, wrecking the establishment of Davis & Co., grocers, and Wright & Co., chemists. It is feared that at least thirty lives were lost.

In one of the wrecked buildings was Hillers book bindery, which employed two dozen girls. Three of them escaped, but the others went down with the falling building.

The ruins took fire and there is hardly a chance that any of those buried in the wreck can escape.

LATER.—At 1 o'clock eight bodies had been taken out. Half a dozen persons were rescued alive, but they are probably fatally injured. It is believed now that fully thirty lives were lost.

# Carleton Column.

A few words about the elections, which are just now agitating all classes.

There are two kinds of elections. One is at the polls and elects the successful candidate for a term of years.

The other is in the hearts of the people, and often elects the candidate for life.

Such an election as the last named has been going on for years. Will Carleton was the principal candidate and he was long ago elected as the most popular poet in the United States.

He does not stop holding his conventions because the election has taken place and he safely elected. He keeps right on holding them; he wants to meet his readers face to face, and interpret to them his matchless poems.

"I thought I knew what was in them," said an enthusiastic Middletowner, the other day, "but I didn't. I was in Brooklyn, one day, and dropped in at one of his wonderful entertainments, (of which he has already given over fifty in his home city), and understood him as I never had before."

## EATING AND EATERS.

IT IS NOT GOOD FORM TO DO MORE THAN TASTE AND SIP.

If Invited to a Smart Dinner, Dine Before You Go—How Dinners and Banquets of Fabulous Cost Are Got Up and Served by Caterers.

An American author and musician told a queer little story the other day that ran like this:

"Went to the opera; sat in a box with two ladies and three men; social leaders; very swell; felt out of place; heard nothing but talk and chatter; missed all the singing and music; after the opera, supper at the Waldorf; expected that, of course; went prepared—very hungry; all the dainties of the season on the table, but nobody ate; wine in abundance, all drinking; more talk and gossip; wouldn't eat alone, so starved; not polite to eat nowadays. I'm told; proper to mince along, taste a morsel and talk; don't like it; no more fashionable suppers for me!"

Another man, an habitual diner out, remarked:

"I invariably eat my dinner at home before going out to dine. Nobody thinks of eating at a public dinner nowadays. It is the height of ill breeding! At private dinners with ladies who eat is voted a bore. He must sip and taste and talk; that's all that is expected of him. If I didn't eat at home I'd starve to death."

Perhaps something in recent years has altered the belief that the nearest way to a man's heart is down his throat. Hosts used to feed their guests to put them in good humor, to make their visits agreeable. Everybody at the table ate and drank and all went merrily.

Better dinners than those provided today the world never saw, but they are not eaten. New York dinners are superior in many respects to those of any other city in the world. The people have money and are willing to pay for the best the market affords, and there is no doubt that the New York market is unsurpassed. There are more refinements, too, at an American entertainment than elsewhere, more variety. Still it is well to dine at your own table before going to the house of a fashionable friend. At the latter you are expected to entertain, not to partake of what is set before you. Leave that to the servants or to the caterer. Rich folk used to have their own servants prepare the dinner when guests were expected, but nowadays everything is left to the caterer. It is so much less trouble, you know. Why worry for days arranging a dinner for a dozen, or two of one's friends when it can be better done by the caterer? We have plenty of caterers. Some have grown rich and proud on the feasts and banquets given by the fashionable set.

When a millionaire wants to give a dinner he sends for his favorite, tells him the number of guests expected, advances a few ideas on the general style of the entertainment, names the day and hour, and says, "I leave everything to you." The menu is submitted, and, if satisfactory, both as to price and dishes, the preparation goes on.

The entire dinner is prepared at the establishment of the caterer, after which, on the day appointed, it is carefully packed in hamper and boxes and conveyed to the house where it is to be eaten. Most private houses are fitted with excellent ranges, and on them the caterer's chefs do the cooking. Positively nothing is left to the home cook.

The caterer takes entire charge of the kitchen. He could not be responsible for the dinner otherwise. The dining room also is turned over to him, for the dinner itself is scarcely more important than the arrangement of the table or tables.

Certain unwritten rules are followed in this respect. When there are less than 20 persons they are usually seated at one large table, rectangular or round; but when that number is exceeded it is the custom to use small tables, as they can be better served. Six persons to a table is the rule. The expansion of society in New York in the last 12 years has been very great, and the size of the private dinner has increased enormously. It used to be considered a big thing to have 10 or 12 guests, but now it is common enough to have from 20 to 30. Where no exceptions a few years ago numbered from 300 to 400 guests, they now number from 600 to 1,000.

The cost of a dinner depends on the wines and flowers. An excellent dinner can be served for \$200, persons at \$10 a plate, the flowers will cost about \$15 and the wines from \$10 to \$15 a head. At Mrs. A. S. Stansons ball, in the winter of 1899-90, the finest entertainment she ever gave, the wines on the supper table were very select. Her Steinberger Cabernet cost \$15 a head.

The dinner to Charles O'Connor was one of the finest ever given in this city. It was in charge of Mrs. Ward and cost over \$50 a plate. The menu alone cost \$6 apiece. The decorations were most elaborate, the table being literally covered with flowers. The wines were the costliest that could be had. Some of Sam Ward's priceless Madras was handed around. The guests numbered 50.

The dinner to President of Andrew Johnson on the occasion of his visit to New York, in 1866, cost \$100 a plate. Leland Stanford's dinner to Mrs. Grant, about five years ago, caused a great deal of talk all over the country. It was believed that the 18 guests ate from plates of gold and silver; that the tablecloth was edged with point duches lace; that under each wineglass there was a napkin of the same costly fabric, and under each finger bowl a Japanese mat that cost \$50 and that the terrapin were served in individual silver tureens.

be delicate, run-down, or overworked, it worries her husband as well as herself. This is the proper time to build up her strength and cure those weaknesses, or ailments, which are the cause of her trouble. Dr. Pierce's Favorite Prescription dispels aches and pains, melancholy and nervousness, brings refreshing sleep and makes a new woman of her.

Mrs. Anna M. Lyon, of Louisville, Jefferson Co., N. Y., writes: "I had been suffering from indigestion and falling of the womb for several years, or since the birth of my youngest child. I consulted all the physicians around here and they gave me up, and said there was no help for me. At last, almost discouraged, I began taking Dr. Pierce's Favorite Prescription and took five bottles. It is three years since and I have not had any return of the trouble. I feel very grateful, and in fact, owe my life to it. I do not think I should have been alive now if I had not taken your medicine."

## HABITS OF THE MANATEE.

A Harmless Monster That Feeds Under Water on Grasses.

The manatee belongs to a mammalian order called sirenia, or sea cows, which contains only three species—our manatee, that of west Africa and the dugong of Australia. As its clumsy form suggests, it is an animal of quiet and even sluggish habits, entirely harmless and easily tamed when once its haunts are known. When at home, its food consists of tender aquatic plants and grasses, always eaten under water, and its presence is generally revealed by the bits of broken stems and grass which escape and float to the surface above where it is feeding.

In captivity it feeds on cabbage, lettuce, the leaves of the canna, celery tops, watercress, spinach, and also certain kinds of ocean seaweed. In the St. Lucie river its favorite food is a luxuriant, trailing aquatic grass, called manatee grass, in which the manatee finds not only good food, but good hiding places from its human enemies.

The bones of this animal are massive, solid and quite heavy (some hunters will tell you its bones are "solid ivory"). and its skin is as thick and tough as that of a hippopotamus. I have seen very good canes made of strips of manatee skin, twisted like a lightning rod and dried. Its flesh is very good, and, to me, tastes quite like lean pork. Curiously enough, this strange creature actually sheds its outer skin every year, as does a serpent. The living specimens that from time to time have been captured and kept for exhibition in Demerara, Philadelphia, New York and London have in all cases been of small or medium size, varying in length from 4 to 7 feet. The one which was shown in the Central park menagerie in 1873 was 6 feet 9 inches in length and weighed 450 pounds.—W. T. Hornaday in St. Nicholas.

## A FAMOUS MAN'S MOTHER.

Thomas Wentworth Higginson's Beautiful Tribute to His Mother.

I trace to my mother's direct influence three leading motives of her youngest son's life—the love of personal liberty, of religious freedom and of the equality of the sexes—writes Thomas Wentworth Higginson in The Ladies' Home Journal. As to the more subtle and intimate influences, they ordinarily came by contact, not by preaching. She always maintained that the younger children of a large family had a much better chance for development than the older because they had more freedom to develop themselves. With her elder children, she always said, over-education almost bore her to the earth. She felt personally responsible for every childish fault.

She had been reared in the school of Locke, which regarded the human soul as blank paper, on which parents and teachers did all the writing. But her children were of strong and varied individuality, and she learned in time to study the temperament of each and be patient with its unfolding. Her whole formula of training consisted in these three things: To retain the entire confidence of the child, to do whatever seemed wisest and to be patient. Her trust in Providence was absolute and controlling, as was her sense of the personality of the Deity.

Most valuable of all her traits to her children next to her quality of sunshine was probably her absolute rectitude, the elevation of her whole tone, the complete unworldliness, so that no child of hers ever had her refer to any standard but the best. With all this was combined the conscientious accuracy in affairs, the exquisite nicety in all household details, which belong to the best of the traditions of New England.

## The Contagion of Ideas.

Affirmation, pure and simple, without reasoning and without proof, is one of the surest means of planting an idea in the popular mind. The more concise it is, the more free from every appearance of proofs and demonstration, the more authority it has. The religious books and the codes of all ages have always proceeded by simple affirmation. Statesmen called upon to defend any political cause and manufacturers advertising their goods know what it is worth. Yet it has no real influence, except it is constantly repeated and so far as possible in the same terms. Napoleon said that repetition was the only serious figure in rhetoric. By repetition an affirmation is inculcated in the minds of hearers till they at last accept it as a demonstrated truth. What is called the current of opinion is formed, and then the potent mechanism of contagion comes in. Ideas that have reached a certain stage, in fact, possess a contagious power as intense as that of microbes. Not fear and courage, only are contagious. Ideas are, too, on condition that they are repeated often enough.

When the mechanism of contagion has begun to work, the idea enters upon the phase that leads to success. Opinion, which repelled it at first, ends by tolerating and then accepting it. The idea henceforward gains a penetrating and subtle force which sends it onward, while at the same time creating a sort of special atmosphere, a general way of thinking.—Popular Science Monthly.

## One of the Three.

A bold and fearless statement was made in this column a few days ago touching beauty. It was put forth that there were only three actresses on earth who could lay an honest claim to beauty. "Clara M." writes that her curiosity has been aroused and wants to know who the three are. Now, it would be very ungrateful to say. The statement has all the attributes in the world guessing, and until the names of the three are mentioned each of our footlight favorites will believe she is one of them. Why spoil their fun? What is the use of calling names to make people feel injured and slighted and misunderstood? I do not doubt that Miss Clara M., if she be an actress, could lay an honest claim to recognition as one of the three. —New York Press.

THE BANE OF HUMAN LIFE,

Driven Out of the System by

the Use of

**Ayer's Sarsaparilla**

"For five years, I was a great sufferer from a most persistent blood disease, none of the various medicines I took doing me any help whatever. Hoping that change of climate would benefit me, I went to Cuba, to Florida, and then to Santa Fe, where I remained some time drinking the waters. But all was no use. At last, I was advised by several friends to try Ayer's Sarsaparilla. I did so, taking it, and very soon I began to feel better. I was manifestly cured. Today I consider myself a perfectly healthy man, with a good appetite and not the least trace of my former complaint. To all my friends, and especially young men who suffer from blood diseases, I recommend Ayer's Sarsaparilla, if in need of a perfectly reliable blood-purifier."—J. W. A. ## A YOUNG WOMAN MISSING.

She Disappeared on Saturday and No Trace of Her Has Been Found.

A well known young woman, residing in the western portion of the city disappeared from her home on Saturday last and has not since been heard from. Her friends can not account for her sudden departure, and after making inquiries at the depots of the various railroads have been unable to learn that she has purchased railroad tickets.

The young woman has been employed down town for a long time and has given satisfaction to her employer. On Saturday she told him she was going to Port Jervis to spend Sunday and would return Monday morning, but did not visit Port Jervis.

She is the daughter of a widowed mother, who is almost heart broken over her disappearance and the uncertainty as to the reason therefor. The young woman has a number of relatives in this city, very respectable people who are grieved because of what they regard as a very foolish escapade to say the least, and they earnestly hope that it may be nothing worse than a silly notion of a thoughtless girl to create a bit of a sensation among her friends, and that she will soon return and relieve their anxiety.

The elopement theory is advanced by some of the girl's friends, but the second party necessary to such an affair is not known.

## A HOTEL'S DOORS CLOSED.

The Hamilton House Closes for Election Day and Does Not Re-open—It's Nobody's Business.

Mr. Peter Steinman, proprietor of the Hamilton House, corner of James and Depot streets, closed his doors, yesterday morning, in obedience to the law requiring the closing of bars and saloons on election day and has not since opened them.

It is understood that the business of the place was not satisfactory to Mr. Steinman and that he packed up his goods and shipped them out of town, yesterday.

It is also said that he owes no one anything and therefore that his apparently sudden determination to locate elsewhere and his future location are no one's business but his own.

Mr. Steinman and his family were still in town, to-day.

## The Chrysanthemum Show.

The chrysanthemum exhibition, flower show and fair opened in the Assembly Rooms, to-day, and will be open afternoon and evening the remainder of this week. Supper will be served Thursday, Friday and Saturday evenings by the Ladies' Guild of the First Congregational Church.

## First Presbyterian Church Fair.

The ladies of the First Presbyterian Church have collected quite a number of pretty things suitable for holiday gifts, which they will sell at their fair, Nov. 13th, 14 and 15th, held in connection with the flower show given by Herr Bartholomew.

## More Than a Thousand Couples.

Have been reconciled by Will Carleton's great poem, "Betsey and I are Out." Not a State in the Union but has witnessed occurrences of the sort. The reading of that lyric of domestic life, has again and again harmonized the contending passions of home, as nothing else could do.

## A Very Busy Hat Factory.

Ferry & Napier are increasing the force in their hat factory at Newburgh, and have orders enough ahead to keep the factory running until next spring.

## You Can Believe.

The testimonial published in behalf of Hood's Sarsaparilla. They are written by honest people, who have actually found in their own experience that Hood's Sarsaparilla purifies the blood, creates an appetite, strengthens the system and absolutely and permanently cures all diseases caused by impure or deficient blood.

Hood's Pills for the liver and bowels, act promptly, easily and effectively.

INCIDENTS AND HAPPENINGS IN COSHEN.

Arranging for Foot Ball Games—A New Secret Society—Odd Fellows to visit Middletown—Change in Time of Presbyterian Prayer Meeting.

From Our Regular Correspondent.

—The Erie's new time table goes into effect on the main line and branches, Sunday.

—The Goshen Social and Athletic Association's foot ball team is negotiating for three games on the Driving Park. If successful, they will play the Ellenville team on Saturday of this week, the Cornwall Military Academy team the following Saturday, and the Middletown team on Thanksgiving Day.

—A lodge of the Knights of Macedonia is being organized in Goshen.

—Mr. and Mrs. Joseph Edwards, of Washington, D. C., are in town, visiting the parents of Mr. Edwards.

—A number of Goshen Old Fellows will visit Luther Lodge of Middletown, to-night, to welcome Grand Master Alfred Guthrie, of Albany, and other grand officers of the lodge, who are expected to be present.

—Prayer meeting services in the Presbyterian Church will be held on Wednesday night, hereafter, instead of Tuesday, as formerly.

The Carleton Column

Is always good reading. Read it while it lasts. Its culmination will be on Friday evening, the 8th, at the Casino.

## Population of the State Hospital.

According to the *Conglomerate*, there were, Tuesday, 1,125 patients in the State Hospital for the Insane, in this city, of which 558 were males and 567 females. During the week one patient was admitted and two discharged.

## "The First Settler's Story."

Has been told again and again by the pioneers of this and other towns, but never as Will Carleton tells it. It is thrilling to read; it is splendid when read by a good elocutionist; it is immense when recited as only its author can give it.

A drowning man would have little use for a method of resuscitation which would require days. A dyspeptic doesn't want to bother with a remedy that is going to take weeks to show its beneficial effects.

The Mount Lebanon Shakers are offering a product under the name of Shaker Digestive Cordial which yields immediate relief. The very first dose proves beneficial in most cases; and it is owing to their unbounded confidence in it, that they have put 10 cent sample bottles on the market. These can be had through any druggist; and it will repay the one afflicted to invest the trifling sum necessary to make a trial.

The Shaker Digestive Cordial relieves by resting the stomach and aiding the digestion of food.

LAXOL is the best medicine for children. Doctors recommend it in place of Castor Oil.

## THE CHRYSANTHEMUM SHOW.

A Fine Display of Beautiful Flowers at the Assembly Rooms.

The chrysanthemum exhibition in connection with the fair of the First Congregational Church opened at the Assembly Rooms, this afternoon, and will continue during the remainder of the week.

The chrysanthemums are the property of Mrs. Geo. S. Belding. There are between forty and fifty varieties and the blooms are fully up to the standard of former exhibitions in size, form and coloring.

Mrs. Belding also has on exhibition a number of new varieties of orchids.

A physician's practice increases according to his skill shown and, satisfaction given.

This accounts for the large number of persons now receiving treatment for cure of rupture without danger or loss of time, by Drs. Jones & Potter, of New York. Russell House, Thursday.
